

Activity 9 - International Music

In our Music lessons, we have listened to a range of music from different countries. We have listened to many genres of music too including rap, pop, blues, jazz, classical to name a few and learning about where this music first originated from.

In June, we had an African drumming workshop. Reception and KS1 children had the chance to play a range of djembe djembe drums and follow a rhythm. This helped us learn more about music from another culture, especially Year 2 children who were learning about Africa in the Spring Term.
